OIL AND WATER SEGREGATION DENIED

Anaheim Union Water Co.
Stockholders Turned Down
the Proposal

DIRECTORS MAY BORROW \$50,000

Election of Officers Will be
Held Tomorrow—Import-
ant Meeting

ANAHEIM, Jan. 29.—For the first time in five years a full quorum of stockholders of the Anaheim Union Water Company was today obtained for the election of a new board of directors, over sixty-seven hundred shares being represented. It was by far the most important meeting in a decade.

The stockholders failed to reach the election of officers, and that fight will be settled Tuesday. Among important transactions was granting the directors the power to borrow \$50,000 for the extension of the water system to irrigate several hundred acres.

The stockholders approved an appeal from the decision of Judge Conrey in the recent tri-county water suit. They refused to consider the proposition to segregate the oil business from the water by forming a holding company. The value of the oil rights of the company is \$1,500,000. A move to separate the oil business had the backing of C. C. Chapman and G. W. Sherwood, two of the large stockholders.

NEYLAN SAYS NO IMMUNITY FOR NAPA OFFICIALS

SACRAMENTO, Jan. 29.—"Dr. Elmer I. Stone is a confessed embezzler and a confessed perjurer, having sworn to false claims against the state."

This is the summary of Dr. Stone's record at the Napa insane asylum by John Neylan of the State Board of Control, who on Saturday reported to the governor concerning the conditions of the Napa asylum.

Neylan has issued a statement replying to Dr. Stone's statement made yesterday, and sent out to the newspapers, replying to Neylan's report. Neylan's answer is most bitter and scathing. Dr. Stone's statement asserts that Neylan broke faith in making the record public, as he had promised him immunity. Neylan, after saying that Stone had lied shamelessly, said:

"He is crafty, and is now endeavoring to save himself from the penitentiary. He said I had agreed to suppress the record. How could I suppress a public document. His charge that I used the third degree is ridiculous. Stone's secretary and two stenographers were in an adjoining room when he confessed. His statement that he secured the resignation of Board Members Meacham Steves and Belcher, illustrates his character, showing that he is willing to sacrifice anyone to save himself. Concerning the interview at which Mrs. Stone begged me not to drive her husband to the penitentiary, suffice it to say that Stone's conduct during that interview was such as to inspire a man with red blood in him with positive loathing. When a man allows his loyal wife to shoulder the blame and consequences of his crimes, what is he?"

Stone's Statement Denied
SACRAMENTO, Jan. 29.—John F. Neylan, member of the State Board of Control, who investigated Napa Hospital, yesterday characterized as absolutely false statements given out Saturday night by Superintendent Dr. Elmer E. Stone, to the effect that his confession had been secured by third degree methods and that immunity had been promised him.

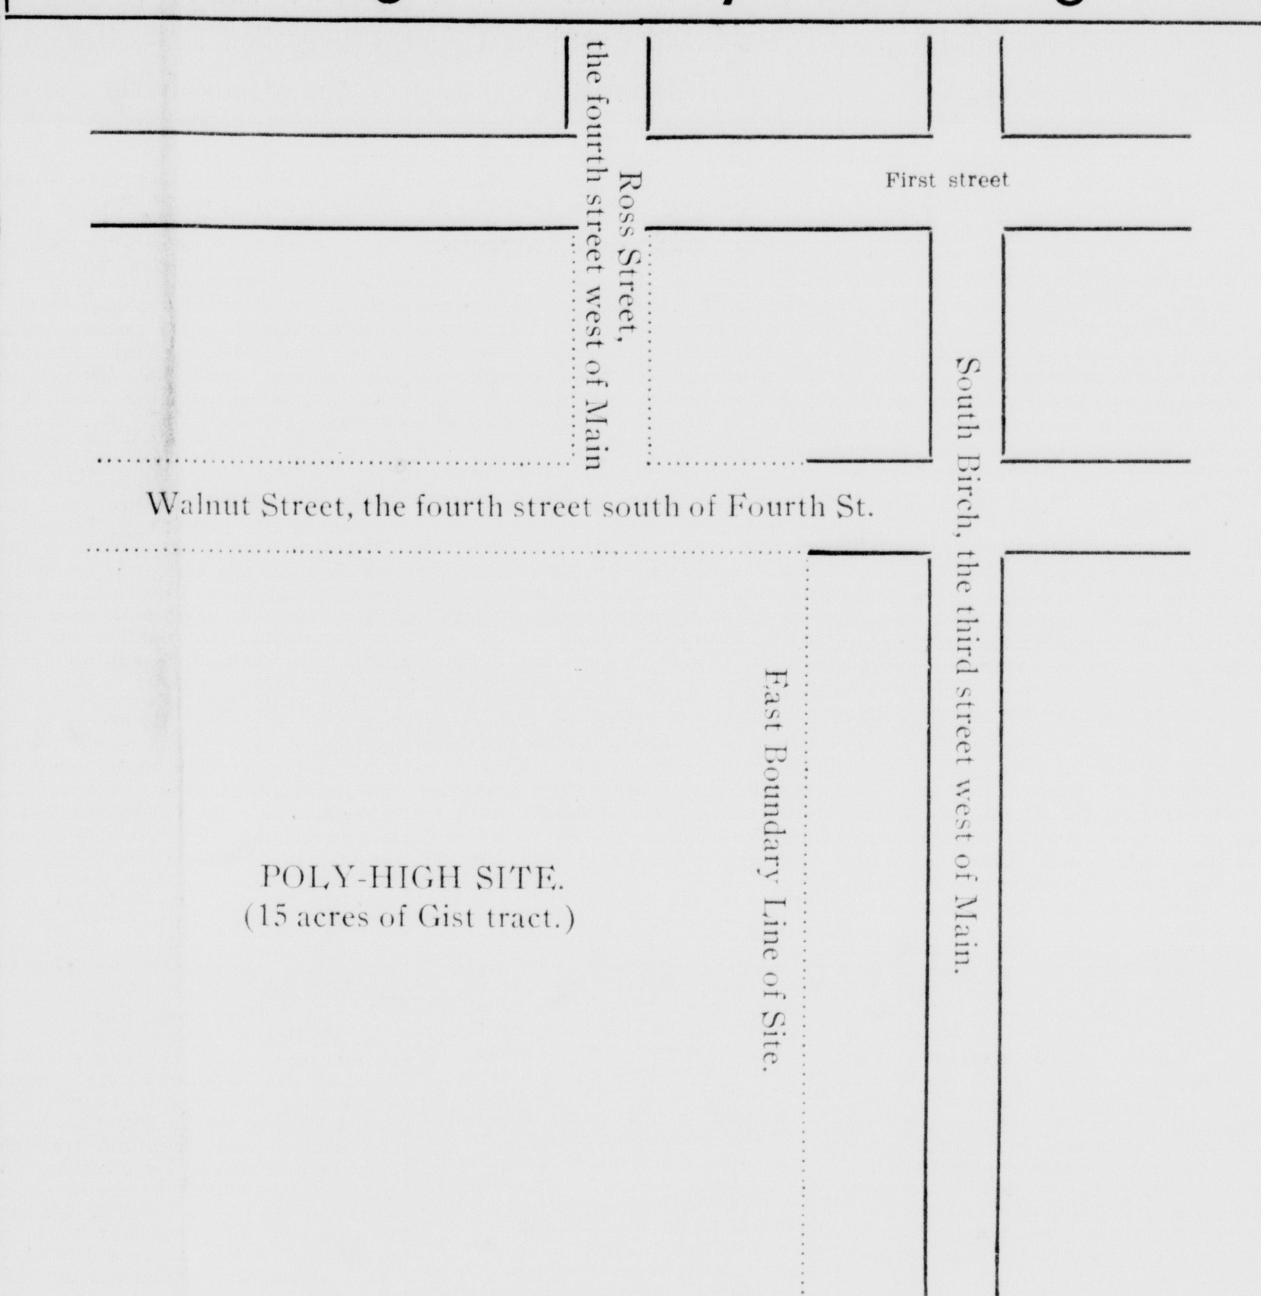

Neylan also disposes of the claim that the resignation of Messrs. Belcher, Steves and Meacham of the board of managers, were received on the condition that Stone should be saved.

Neylan declared that when Richard Belcher came to him with the three resignations Belcher was told that if any condition of any kind or character were attached to the resignations, he could take them away with him, and that steps would be taken to take the institution out of the hands of the men who had mismanaged it.

LABOR DENOUNCES WM. D. HAYWOOD

Former Miners' Idol Declared
Enemy of Labor—Darrow
Also Attacked

DENVER, Colo., Jan. 29.—William D. Haywood, former secretary of the Western Federation of Miners, who is now in Lawrence, Mass., working in the cause of the striking textile workers, was denounced by the Denver Trades and Labor Assembly yesterday as an enemy of organized labor.

The resolution attacking Haywood was passed after evidence had been presented to show that Haywood had been quoted correctly in the newspapers recently, when he made statements attacking the American Federation of Labor because of its withdrawal of support from the McNamaras, following their plea of guilty in the Los Angeles dynamiting case. Haywood's remarks were branded as incendiary and unworthy of a man connected with organized labor.

O. N. Hilton, the Denver attorney, who, for a short time after the arrest of the McNamaras, was connected with their defense as counsel, in a speech in the local labor assembly yesterday, denounced Clarence Darrow, the McNamara attorney, declaring that he had sacrificed his clients to his own interests. He said he had information from Los Angeles that Darrow had already engaged S. S. Abbott, connected with the district attorney's office in Los Angeles, to defend him in case an indictment was brought by the grand jury.

Darrow was asked on Saturday night at Venice for a statement regarding the charges of Judge Hilton.

"I never considered my own interests in any way in the McNamara matter. I did what I thought was right for my clients. As to Abbott, I have not retained him, nor do I know such a person."

Wolfe, 416 East First street, found a half dollar in a cluster of pebbles, rocks and moonstones.

ANAHEIM

VICTIMIZED BY STRANGER

Anaheim Jeweler But Now Tells of \$1166.66 Loss in November

ANAHEIM, Jan. 29.—Barney Hartfield, a local jeweler, was victimized November 25 by a swindler, who gave him the name as Judson Smith, in the amount of \$1166.66. The stranger presented a draft on a New York bank in this amount in payment of a purchase of \$923 worth of diamonds, which he stated that he was buying for his wife and daughter.

The balance, \$243.66, was paid the clever swindler by check, which was cashed at the local bank. Smith claimed to be the president of a large lumber company in the east.

He posed as a Mason and a Shriner and said he was looking for an orange grove near Anaheim, as he intended to purchase property in the vicinity.

Hartfield hired an auto and showed the fellow the country, after which he took him to Garden Grove, in order that he could board an electric car, as he did not want to wait for the steam cars which run through Anaheim.

The swindler played his part so well that it would be a difficult matter to suspect that the draft that he presented was bogus. The draft was returned as worthless, and the fellow has never been heard of since he visited Anaheim. Local officers and the Pinkerton detectives are at work upon the case, it having been just reported to them.

Anaheim oranges will have a fine representation at the approaching second annual national orange show to be held at San Bernardino, February 19 to 24. NEWPORT BEACH

WAS NOTHING BUT LOBSTER

Newport Beach Robber Hunters Stand Guard on a False Alarm

Newport News: Last Saturday a stranger walked into the Newport bar and went straight through without stopping. As he was a suspicious looking character Billy Hall waited for him to come out, but he never came. Hall then went to investigate and found that the man had scaled the fence at the rear of the saloon. This happening the next day after the Anaheim robbery pat Hall on his guard for a holdup. He had a hole cut through the ceiling of his office so he could perforate the carcass of anyone working on the safe at night.

Sure enough about three o'clock Monday morning, Hall, who now sleeps with one ear open heard a noise in the office below. Hastily awakening his first lieutenant, Charley Grau, with "Get up and get your gun, Charley, they're into us!" Grau got his gun and the two men stood for an hour and a half in their bare feet listening to strange noises coming from the office below, but unable to get a sight of anyone. Finally it dawned on Hall that he had left a sack of lobsters in the office and investigation developed the fact that one of them had escaped and was flopping around on the floor.

All the news as printed so far about the robbery of the bank two weeks ago has been true to the best of our knowledge and belief. The following story is a joke on the robber who was keeping guard in front of the bank and is vouched for by Arthur Means, Harry Edenborough, proprietor of the Hotel, was awakened by the explosions that wrecked the safe and came out on the lawn in front of the hotel with his gun in his hand. The burglar seeing him standing there motionless, though listening to a scarecrow but there to keep the linens off the grass and took refuge behind him. Having in the excitement of the time he was making preparations for the robbery forgotten his smoking tobacco he reached in the coatpocket of the scarecrow and got out a sack of tobacco and cigarette papers and rolled a cigarette. It is said that he even scratched the match on Harry's face and escaped before it dawned on the hotel man that he ought to shoot.

The bloody coat and shirt found in the Newport gun club house were not on any man's body when they got the blood on them as there is more blood on the shirt than there is on the coat, and it is plain to be seen that the blood dropped on them while they were lying on the floor. Still there is no theory to explain the presence of the fresh blood in the club house other than that the wounded bandit took refuge there. There are about 200 No. 5 shot in a 12 gauge shell such as Hall used when he shot at the man. As there were only 91 hit the old public toilet past which the man was running the rest of them undoubtedly hit the man, the load was aimed high and would about have caught the man in the face and upper part of the body. The blood in the club house looks as if it dripped from a man's face and the generally accepted idea is that the man who was wounded either got into the swamps of the gun club and died or that he was sheltered by someone in Huntington Beach. That he could have escaped unaided seems impossible.

Miss Pearl Grant is able to preside over the Newport Beach schools again this week after a sick spell lasting since Christmas. The pupils are glad she is back on the job as she is a very popular teacher.

W. S. Collins has his crew of oil drillers at work on the Fairview well. If a good flow of oil is ever discovered on the mesa adjoining this city the credit will belong to Mr. Collins who persevered.

All of the brick for the new bank building are on the ground. The new building will extend out the sidewalk and will be a solid brick with pressed brick front and side instead of a brick veneer as the old building was.

The Brannigan glass plant is again being talked of as a probability this spring. It is said that Mr. Brannigan proposes to deposit \$15,000 in the bank here to be used solely for the erection of the plant in return for which he is to be given a free site near the bridge across the Santa Ana river.

The consent of Mr. Irvine has been secured to have the plant located here and there is nothing in the way now if the glass people really mean business, which they claim they do.

The Newport Beach Company has given the school board a price of \$12,900 for the seventeen lots in block 13, wanted for a central school building, a reduction of 25 per cent from list price. As a new and larger school building is a necessary step will be taken to call a bond election as soon as possible. The Newport school district includes Balboa Island and part of the Irvine ranch.

W. S. Collins has his crew of oil drillers at work on the Fairview well. If a good flow of oil is ever discovered on the mesa adjoining this city the credit will belong to Mr. Collins who persevered.

All of the brick for the new bank building are on the ground. The new building will extend out the sidewalk and will be a solid brick with pressed brick front and side instead of a brick veneer as the old building was.

The Brannigan glass plant is again being talked of as a probability this spring. It is said that Mr. Brannigan proposes to deposit \$15,000 in the bank here to be used solely for the erection of the plant in return for which he is to be given a free site near the bridge across the Santa Ana river.

The consent of Mr. Irvine has been secured to have the plant located here and there is nothing in the way now if the glass people really mean business, which they claim they do.

The Newport Beach Company has given the school board a price of \$12,900 for the seventeen lots in block 13, wanted for a central school building, a reduction of 25 per cent from list price. As a new and larger school building is a necessary step will be taken to call a bond election as soon as possible. The Newport school district includes Balboa Island and part of the Irvine ranch.

Miss Pearl Grant is able to preside over the Newport Beach schools again this week after a sick spell lasting since Christmas. The pupils are glad she is back on the job as she is a very popular teacher.

NEWPORT BEACH

WOULD JOIN IN PROJECT

Newport Beach News Has Suggestion for Outfall to Mouth of Bay

Newport News: In regard to the difficulties in finding a way to build an outfall sewer to the ocean which Santa Ana is experiencing it seems to us that the most logical solution of the problem is for Santa Ana and Newport Beach to go in together and build an outfall sewer into the ocean at the entrance to the bay. This city will certainly as it has done in the past, prevent Santa Ana from ever making Newport Bay a dumping ground for its sewage. While some of the Newport sewers go into the bay at present there is a city ordinance which prevents any more from this city being laid to the bay. When the trustees passed this ordinance they had in mind the fact that an outfall sewer would have to be built in a few years. The city being built on a long, narrow sand-pit the engineering difficulties are reduced to a minimum as about all there would be to the sewer system would be the construction of the main line down the center of the peninsula. An outfall could be utilized as a jetty also which would at the same time improve Newport Bay in such a way that entrance could be gained at any tide. Newport Beach needs a sewer system nearly as badly as Santa Ana does and it seems as if the two cities could work out some plan for the common use of an outfall sewer to the ocean which would once and for all time solve the sewage problem for both places.

Three Years Ago
G. F. Belden, one of the party of government surveyors who surveyed the bay and took soundings outside the bar in 1876 was in Balboa Sunday with his wife, Mr. Belden is now retired and when not traveling lives in Cincinnati. He came back to Newport Bay Sunday to see if the old surroundings looked natural. He says that at the time the bay was surveyed that it was a very easy job on account of the storms and the difficulty of getting provisions and water. Water was obtained from the spring at the head of the bay and every cove and inlet from there to the channel are perfectly familiar to Mr. Belden. His memory for topography is so accurate that he buried a bottle of wine in a cleft at Corona Del Mar and returned fifteen years afterward and found it. The party that surveyed the bay consisted of seven men and was in charge of Major Chase.

NO GROUND FOR RECALL

The Register has not regarded as serious the talk of attempting to "recall" President Duggan of the Board of Education, and therefore has not expressed its opinion on the subject. However, the talk is so persistent—even going to the extent of resulting in a formal meeting of the talkers,—that in justice to Mr. Duggan and to itself this paper feels impelled to enter its protest against any further movement in that direction. We have published the news—what was being said and done—in this matter, just as we try to do in all matters of general interest and importance, without suppression or coloring of any kind, but of course that is no sign or indication that we approve the proposition.

The "recall" is a powerful weapon of defense, and we approve of its being placed in the hands of the people for that purpose; but it is also a dangerous weapon and must be handled with care. It is like a sword endowed with moral qualities of righteousness and vengeance, which would surely and sorely hurt the man who might try to use it unrighteously or unwisely. In this point of view, even if there were serious grounds for dissatisfaction with President Duggan's official conduct, it is exceedingly doubtful that recall proceedings would be justified.

But as we understand the situation, President Duggan, at the worst, has been guilty of only a tactical error—a possible failure in diplomacy, an inadvertent or even only an apparent discourtesy,—the correct measure of which can hardly be taken by anyone not familiar with all the attendant conditions and circumstances and endowed with the supernatural power of insight into men's minds and hearts.

Without some better "cause for action," as the lawyers say, than now appears, the Register protests in the name of fair-mindedness against any effort to work up recall sentiment against Mr. Duggan.

THE MARKET-BASKET

One of the most important causes of the high cost of living is the decline of the custom of the housewife marketing with her basket over her arm and usually paying cash for her purchases.

Compare this with the modern practice; most of the business is now done over the telephone and on credit. Each woman orders the pound of steak or bunch of celery sent out at once, as "I forgot to include it in the morning order." It is unfashionable to carry even a small package herself, unless, of course, it is a new dress.

The result of this is that the consumer pays the cost of that fine, shining auto delivery wagon.

This is perhaps not the worst result of the telephone ordering, because the grocer who knows his business, suggests that "a fresh shipment of vegetables which are very good just arrived this morning." Then when the first of the month comes round, the young husband receives the bill and the cry of the high cost of living is heard.

NEWSPAPER ERRORS

Have you grown indignantly eloquent about the errors in a newspaper? Was it the transposition of a letter, an incorrect initial, misspelling—like the marking of an eminent woman's name "Booz" instead of "Boaz" or was the story ruined by the loss of two or three lines?

Why are newspapers so careless? They are not. A daily newspaper like the Register contains from 100,000 to 150,000 words of reading matter—more than the ordinary book. This news is gathered, written, printed and distributed in less than twenty-four hours, most of it in one-third of that time. The reporters, copy readers, linotypes and compositors are pushed to the limit because you must have the news!

Is it any wonder that the compositor sometimes runs a paid local under an obituary, as out in Kansas under Mrs. Gilkey's death notice there appeared: "Get ready now. Buy one of Blank & Co's. new cooking stoves, my dear woman, and you need fear no future heat."

A dozen errors are an exceptional number for a single issue of any city newspaper. The newspaper's slogan is accuracy, accuracy, accuracy!

The College of Agriculture of this state has issued a number of bulletins particularly useful to citrus growers lately. The latest is one entitled "The Black Scale." It is Bulletin No. 223, and may be had free of charge by writing to the College of Agriculture, Berkeley. This bulletin is by H. J. Quayle, assisted by E. W. Rust. The information contained in the bulletin is most complete, as it includes a complete history of the scale, descriptions in all stages of growth, together with remedies.

A county clerk in one of the northern counties of the state has found it necessary to make a rule that women who come to be registered shall dress their hair low on their heads. Tall hair dressings interfere with the measurement of the applicant for registration, for be it known, ladies, you are required to give your height to the registration clerk, and if you do not know just how tall you are, he has a "machine" for measuring you.

1200 WOMEN MARCHED WITH BIBLES IN POMONA STREETS

POMONA, Jan. 29.—Twelve hundred women and girls, all carrying Bibles, participated yesterday afternoon in the greatest religious demonstration ever held in this valley. Headed by a band, the parade started from the First Christian church at 2:30 p. m. and wended its way through some of the principal streets of Pomona to the Presbyterian church, where Dr. J. Q. A. Henry, the "San Francisco Cyclone," addressed a mass meeting on the topic of "True Womanhood."

Pound four ounces of cooked chicken, freed from skin, bone and gristle; when fine, add three yolks of hard-boiled eggs, one tablespoonful of grated cheese, a little French mustard, tarragon vinegar and olive oil, just enough to moisten, and season with salt, pepper and dust of red pepper. Work into a smooth paste and rub through a sieve. Cut thin slices of white bread, butter them, spread the paste between them, close them and press the slices well together. Stamp out with a round cutter and serve.

McDannald to Give Lectures During the Fair at Kansas City

D. W. McDannald was in Santa Ana today making arrangements for gathering exhibits and views to be used by him in advertising Orange county at the Kansas City Land Show, Feb. 26 to March 9.

"I intend to make a special exhibit of rare fruits, such as alligator pears," said McDannald. "These fruits as shown in our Los Angeles exhibit interest strangers more than anything else, and I expect to make them quite a feature of the Kansas City fair."

LONG BEACH PLANS TO VOTE BONDS FOR PINE AVENUE PIER

LONG BEACH, Jan. 29.—The voters of Long Beach will have the opportunity of voting bonds for a new pier at the foot of Pine avenue at Devil's Gate probably within 30 days. The city council has accepted the plans and specifications that call for an expenditure of \$162,000 for the two piers. President F. S. Craig of the board of public works says that the present Pine avenue pier will soon be in a dangerous condition. He believes that if reinforced concrete piers are installed within a short time it will save the city the superstructure, which is worth \$28,000. Unless something is done shortly, Craig will recommend that the pier be closed save on calm days as a precaution to prevent loss of life, should a heavy sea sweep against the structure.

If the city does not build the new pier at Pine avenue, private capital is ready to do so.

DUG OUT OF ORANGE JAIL

E. Estello Lifted a Plank From the Floor and Easily Made His Escape

ORANGE, Jan. 29.—E. Estello broke out of the Orange jail yesterday afternoon, all alone and unaided. Estello was arrested about noon by Constable Jackson. The Spaniard had been enjoying a family row at El Modena, and drew out a knife with which he threatened damage.

Jackson did not put the man in the cage, but gave him the freedom of the corridor, the reason being that Estello was intoxicated and Jackson did not want him to break up the furniture in the cage.

When Jackson went to the jail at 6 o'clock to take the man a supper, the man was gone. He had lifted a board from the floor and crawled out from under the jail. Estello is said to be the same man who served thirty days in November for stealing walnuts.

Costly Laughter

Three Santa Ana boys, Herb Kimball, Walt Ennis and John Menges, laughed at the wrong time last evening.

They were riding in an automobile and in turning a corner came quite close to Constable Logan Jackson, close enough to make him jump. The boys laughed good-naturedly, but the constable couldn't see any joke in it. After driving around a few blocks the machine stopped on Glassell street. Constable Jackson put them under arrest for speeding. The boys raised \$10 bail, and were allowed to go. They did not appear in court today and their bail was forfeited.

EBELL SOCIETY

Heard Good Report of Day Nursery—Listened Mrs. Chapin Fed. Reports

The regular meeting of the Ebells Society was held last Saturday afternoon with a large attendance. Owing to the absence of the president, Mrs. A. J. Crookshank, the first vice president, Miss Stella Preble, presided in a most charming and gracious manner.

After the transaction of the regular business, a report of the Day Nursery was given by Mrs. Norman, which showed that institution to be in a very prosperous condition, and accomplishing much good.

Mrs. Lou V. Chapin of Los Angeles was introduced and after she had been given the chautauqua salute, entertained her listeners for an hour and a half with a very interesting, instructive and inspiring address on "Current Events." Mrs. Chapin is by no means a stranger to many of the members, having been here on several previous occasions, but her audiences never grow tired, giving her a more enthusiastic welcome each time she is heard.

Interesting reports of the district federation meeting at Ontario were given by Madames Pyle, Crose, McElree and Dean. Much is gleaned at these meetings that is very helpful, and all who attended the recent federation came home enthusiastic about the good things heard there.

A "Kid" Party

Friday evening Miss Nellie Bacon was hostess at a "kid youngster" party at her home at 639 North Birch street, and a very enjoyable affair it proved to be. The clever invitations sent out by Miss Bacon started off thus:

"I'm tired of being a grown-up girl; I'd like to be little again. So I'm going to pretend next Friday night."

"That at most I'm not over ten." The guests took the cue, and each and everyone dressed like a wee tot, bringing along a baby photograph to show how she looked when she was a sure "nuff kid youngster. The evening was spent in playing little folk's games, blowing soap bubbles, eating all-day suckers and partaking of bread and milk with bibs tucked beneath each chin. Those present as Miss Bacon's guests were:

Jessie Dicklow, Hazel Rowley, Nancy Elder, Carrie Elder, Marie Harding, Hazel Stokslager, Nettie Ninger, Sadie Ninkler, Luella Donaldson, Thelma Sturgeon, Frances Potts, Rena Stafford, Alice Wasser, Leta Wells, Clara Wells, Zoe Vanderlip, Edith Wells, Josephine McCrory, Adeline Hill, Helen Johnson, Mrs. J. For Bride and Groom

In honor of Mr. and Mrs. Clarence Tedford, recently wedded, Mr. and Mrs. Walter B. Tedford gave a charming dinner party last Saturday evening. The lovely new home of the Tedfords was aglow with lights, and fragrant with exquisite viands. A centerpiece of the floral beauties held the place of honor on the prettily appointed table.

A four-course turkey dinner was served and covers were laid for nineteen, including the host and hostess and the guests of honor. Others were Mr. and Mrs. Birger Elwing and children, Miss Vira and Master William; Mrs. Patton, Misses May and Lelia Patton, Miss Olive Newcomer, Miss Sarah Gardner, Miss Lois Tedford, Prof. Ratcliffe, Chas. Robinson, Granville and Malcolm Tedford.

CHARMING HOLLANDERS

Mrs. Strong, a speaker before women's clubs, recently eulogized the women of Holland while addressing a Los Angeles Club. She paid the Hollandaise ladies a tribute for their aid in building up their unique, sturdy country, speaking from a personal acquaintance with many gentlewomen in the land of dykes.

"Where else could you find such splendid types, of the past or the present?" said Mrs. Strong. Holland's women are beautiful, graceful, quick; they have a serious nature, and a simplicity as rare as charming; their minds are cultivated, and they possess a charm, restfulness and strength which is most pleasing."

Kensington Party

A pleasant Kensington party at the home of Mrs. Frank Remsburg, North Bush street, was presided over last Friday afternoon by Mesdames Oliver, Chas. and Frank Remsburg. The rooms were charming with greenery, and forty ladies were entertained, diversifying the cheerful conversation that prevailed with needlework and guessing contests. In the latter, prizes for high scores were awarded to Mrs. Arthur Lindsay and Miss Grace Grigsby, and bouquets of white carnations were awarded as consolation trophies to Mrs. Emma Forgy and Mrs. B. F. Deswick.

The hospitable afternoon was closed with the serving of delicious refreshments.

Joyous Leap Year Party

Leap year was taken advantage of by some of the Santa Ana High School girls last Saturday evening at the Armory hall. DEBATERS' HIGH JINKS

Held Mock Trial of Miss Everett at Farewell Party on Saturday Night

Saturday night at the hospitable Smart home on North Main street the Webster Club of the high school gave a farewell party for Miss Everett of the faculty, who has accepted a position in the Los Angeles schools.

The feature of the evening was a mock trial, the defendant being Miss Everett, and the charge, desertion. The arrest warrant and the subpoena papers for the witnesses were served by Sheriff Walter Stafford. Judge Ratcliffe presided over the court-room with great dignity, and Isabel Smiley as the clerk, read the charge and swore in the jurors and witnesses. The prosecuting attorneys were Malcolm Tedford and Carson Smith and the lawyers for the defense were Robert Paine and Stewart Smith. The jurors who were finally passed by both sides were Edna McMurphy, Ruth Hillyard, Lamont McFadden, Lennox Covington and George Alsbach. Mr. Phillips of the faculty failed to qualify as a juror because he gave his age as sixteen, and he swore that he believed most emphatically in capital punishment.

The first witness for the prosecution was Lucille Dessery, who represented Sarah De Cashless, a sophomore and member of the debating class, who refused to be in any more debates if the defendant left. The second witness was Carson Smart, who appeared as Frank Ey, since that gentleman is representative of the citizens of Santa Ana. After swearing that he took great interest in debates, he was finally cross-examined into admitting that he had neither ever attended a debate nor contributed to debating funds. Lay McEwell, the prosecution's last witness, represented the faculty in the person of Mr. Ichabod Ratcliffe, who testified that he had entered into many debates with the defendant.

The first witness for the defense was Sophie Hardy, representing a friend of the defendant, who first met her at the Derby horse races in England. The second witness was Winifred Husser in the role of the defendant's mother, and on being questioned as to how long she had known the defendant she stated that it was twenty-seven years. Alberta Black, the last witness for the defense, acted the part of Miss Josephine Goldbrick, by occupation a suffragette, and member of the Los Angeles school board. She carried out her part very well and was the cause of much merriment, especially when she gave her ideal of womanhood.

The defendant was then put on the stand and admirably withstood the volley of cross-examination which followed. Brilliant pleas by all of the lawyers came next, and the jury retired, to return almost immediately with the verdict, "Guilty." Judge Ratcliffe sentenced the prisoner to incarceration in the Webster Club jail until the sheriff saw fit to release her. This he did immediately, and she told fortunes for the benefit of the club treasury.

Refreshments were served later and following these the president, Malcolm Tedford, in behalf of the club, spoke a few words of appreciation of all that Miss Everett has done for the club, and presented her with a beautiful pin, which was in the appropriate form of a gold laurel wreath set with pearls.

Miss Everett responded with her usual tact and sincerity. Her leaving is a surprise to everyone and she will be greatly missed for she is one of the best and most popular teachers that Santa Ana high school ever had. Her work along the lines of practical debating has won for her the notice of prominent educators, and she goes to a good position in the city.

SHOULD TIE THEIR HORSES SECURELY

Policeman John Ryan states that it would be a good idea to impress upon people who drive into town of evenings that they tie their horses securely with a rope or rope and halter. Last night Ryan caught two horses that had broken away from the hitching racks back of the Grand Opera House. Both these horses were tied with reins. One horse pulled his bridle off and the other broke the rein, and had not the policeman caught them there would have been further trouble.

HUNDREDS OF MILES OF CITRUS BEAUTIES THERE

SAN BERNARDINO, Jan. 29.—A golden ribbon all the way from this city to the Mexican line south of San Diego, or from this city to Santa Barbara, or from the Gate City to Bakersfield, could be formed if all the specimens of the golden fruit to be on exhibition at the Second National Orange Show in San Bernardino, the week of Washington's birthday, were placed side by side in a row.

Just a glimpse of the stupendous character of the National Orange Show to be held February 19 to 21, can be gained from this statement. It will be the greatest exposition of citrus fruits and allied industries ever attempted in America, and to make it that and nothing less the business people are giving literally all of their time and efforts to make the show just what is expected.

It will be truly representative of the citrus fruit industry of America. Not only will all sections of California from Butte county on the north to the Mexican line on the south be represented, but Florida and other portions of the country will also have exhibits.

Thousands of boxes of the finest fruit grown in the world will be shown in the box displays, while artistic and beautiful features of all kinds will be displayed by the score. The National Orange Show is not a land show nor a promotional enterprise, in the ordinary sense of the term. It is intended to be representative of the citrus fruit industry in all of its ramifications, and is designed to uphold that industry all over the world. On that ground every growing district is taking keen interest in the exposition. All kinds of mechanical appliances, used in the industry, as well as the fruit, will be shown.

ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should Be a Warning to Every Man and Woman

The newspapers and medical journals recently have had much to say relative to a famous millionaire's fear of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others. Everyone who suffers with dyspepsia for a few years will give everything he owns for a new stomach. Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Wheeler and Mator Drug Company, 194 West Fourth street.

COMMENDS GREATEST OF BOOKS TO GRADUATING CLASS OF HIGH SCHOOL

Grand Opera House Scene of First Function of Commencement Week—

Beautiful Services Marked

The Occasion

The baccalaureate sermon at the Grand Opera House last night, joined in by the churches of the city, was the first function of commencement week of the graduating class of the Santa Ana High school. On Wednesday night the class play will be given, and on Friday night comes commencement night, the night upon which the members of the class will receive their diplomas, when President Blaisdell of Pomona College will deliver the address.

Last night's beautiful services were in charge of the Ministerial Association. The opera house was beautifully decorated for the occasion. Three rows of seats in the center of the house were reserved for the members of the class, the faculty and the board of education.

The members of the class are Edith Brown, Mabel Burr, Orin Daniel, Leticia Livesey, Elizabeth Paine, Robert Paine, Linn Shrewsbury, Eileen Tubbs, Hazel Waite, William Wollaston.

Rev. C. H. Seecombe, pastor of the First Congregational Church, presided last night. Two anthems, beautifully sung by a choir of twenty voices, "Holy Art Thou" and "He Watching Over Israel," and a tenor solo by W. A. Benjamin, were a keeping with the dignity of the occasion.

Rev. A. F. Stem, pastor of the Methodist Church, South, spoke the invocation; Rev. W. H. Weston, rector of the Church of the Messiah, read the Nineteenth Psalm; Rev. George Husser, pastor of the German Evangelical Church, spoke the benediction. The words spoken and the scripture read were all in the nature of an inspiration not only to the graduating class but to every person in the building, crowded to the doors.

The sermon was delivered by Rev. Otto S. Russell, pastor of the First Baptist church.

"You have been kind enough to ask me to speak to you tonight," said he, "and have asked me to pick my own subject. I have decided to speak to you upon 'The Greatest of Books.'"

"We are influenced by the books we read, and no book ever had a greater influence upon man and history than has the Bible, the greatest book in existence."

"It is great because of its origin, its authorship. It came from God. One thought runs through it, the

thought of the blood of Jesus Christ. "Suppose that hundreds of years ago some man cut out a block of granite and placed it in the courtyard square. A hundred years later another man placed another block upon that block, and so on down through the ages, and the product was the most wonderful piece of sculpture in the world. You might think such a thing impossible, but it was in that way that the great book was written. No such a production could have come from man. No good man would have written it, no bad man would have written it, neither could have written it."

"None of those who have assailed it have written anything as good. Everything man has made has been improved upon—take the telegraph, the sewing machine, the steamboat—but the Bible has not been improved upon. The reason is that God is its author."

"This book is great because of its everlastingness. Other books have been before the public mind, but they are soon forgotten. The test comes in the fact that it can be and is translated into every tongue and is transported to every clime and country, and maintains its freshness and has its influence among every people. It is fresher and more alive today than ever before. Suppose one would attempt to obliterate its messages. All the buildings, cemeteries, libraries, art galleries, churches would have to be destroyed. Every man and woman who knows its messages would have to be done away with. Truly as the Lord says: 'My word shall never pass away.'"

"The book is great because of its influence." Rev. Russell showed how the book had influenced England, Germany, Japan and China.

"It is the foundation of all literature. It contains the equal of the masterpieces."

"It is great because of its influence on individual life. No book has had a greater influence upon great men. I commend this book to you for your study. It is the book that makes men trust men. It is the book that makes men love each other."

"It is a great book because of its contents. It tells of God, of myself and of my true relations to God. It tells the truth about men. It is the only book that tells about man's future home."

Anaheim Widow May Be Heir To Millions

Los Angeles Examiner: Rivaling one of Stevenson's tales of intrigue, mystery and tragedy is the remarkable story of Mrs. Tottie Springer, a pretty Anaheim widow, who has just taken steps toward establishing her identity as the missing heir to a Newfoundland estate worth \$85,000,000.

Almost challenging credulity, yet told and retold with a directness that forces belief, is the strange life-history of the young woman, upon the shadowy memories of which she hopes to establish proof of her birth that will stand the test of the English courts.

The estate to which Mrs. Springer will lay claim is in Newfoundland and consists of several miles of water front, rentals, interest and a large fishing industry. It is conservatively valued at \$85,000,000, and the wrangling in England over disposition of its enormous income has involved King George, the Duke of Marlborough and the Duke of Devonshire. Some of the income from the large estate has been going to Lady Elizabeth Churchill.

Pirates Killed Heir It is explained that Samuel Churchill, long ago and there laid the foundation of the great fortune. He had

two daughters, Elizabeth and Clermont, and one son, Nicholas. Clermont Churchill married the captain of a fishing vessel and was disinherited. Nicholas was taken by pirates while on his way to London and forced to "walk the plank." He left a will bequeathing his share of the estate to Clermont.

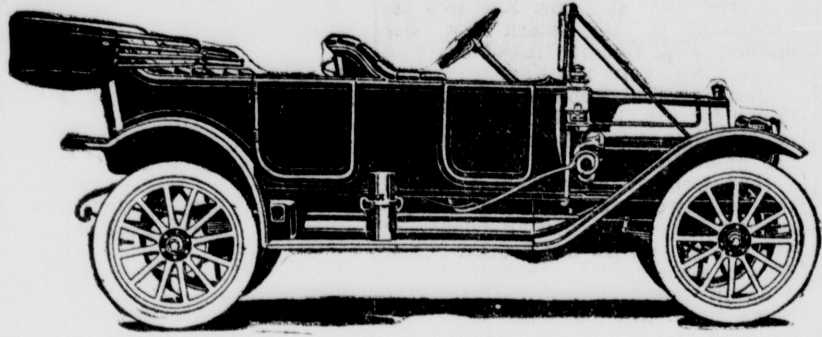

Recently, in the person of Joseph Colla, a Brooklyn carpenter, 65 years old, one of the heirs to the estate was found. One of the Collas married a Churchill, and in this way the family became descendants and heir to the estate. Samuel Churchill was of the Marlborough Churchill family, and the Duke of Devonshire comes into the case through a blood connection.

Woman Tells Story

Records in the possession of the English courts, it is understood, do not show the birth of a child to Clermont Churchill, yet there is strong circumstantial evidence in England that she gave birth to a daughter. To prove that she is the daughter of Clermont Churchill and her sailor-husband, Mrs. Springer has instituted an investigation, through

INVALUABLE POINTERS FOR THOSE WHO CARE

How You Can Enter the Automobile Contest During Nomination Week and Win With Comparative Ease.

This beautiful E-M-F "30" Touring Car, value \$1450.00, to be awarded the candidate in the Register's contest who receives the greatest number of votes.

When war is declared the first thoughts of the opposing armies are to mobilize their troops and get in to action, and the army that fires the first effective shots has put a crimp in the enemy's camp.

The result is practically the same in this contest.

The Register has declared a \$1450 automobile contest.

The first thing for you to do is to declare yourself a candidate by clipping the nomination blank which appears in this issue. Fill in your name and send it to the Contest Department.

THEN DON'T WAIT FOR YOUR NAME TO BE ANNOUNCED, BUT GET BUSY WITH "CENTRAL," CALL UP EVERY FRIEND THAT YOU HAVE AND MAKE KNOWN YOUR CANDIDACY.

If you want to reach anybody who has no phone, pen and ink will be just as effective. Tell your friends that you are one of the many candidates in the Register Contest, and that you are in to WIN.

Request them to clip the vote coupons from the paper and send them into the Contest Department in your favor, and tell them to ask their friends to do likewise, AND TO SAVE THEIR SUBSCRIPTIONS FOR YOU.

This much done, you have organized your friends into a vote-getting regiment, and erected a barrier that your merry competitors will find difficult to surmount.

Then get right into a personal conversation with the Contest Editor, and he will supply you with receipt books for the use of yourself and friends, to be used in securing subscriptions in the joyful battle for ballots.

Names of Candidates
The names of the candidates will be announced in next Thursday's issue of the Register.

Those that are already in the contest are fortunate in having been nominated by their friends before Saturday, Feb. 3.

Those who have sent in a nomination blank for themselves have

been wise in doing so. The nomination blank printed below, when properly filled in and sent to the Contest Department before next Saturday night, will be good for 5000 votes for the one who is nominated.

Five thousand votes in this contest is a START WORTH WHILE. Many a prize has been won and lost by a majority or lack of 5000 votes.

You will lose absolutely nothing by entering the Register's \$1450 Automobile Contest TODAY.

If you put it off until next week you will lose 2500 votes.

The names of the dozens of candidates that have already been entered will not appear until next Thursday night, so you should get your name into this office before then and start off even with the candidates now in the race.

There is everything for you to gain and nothing to lose.

The More the Merrier
Don't let that reference to "dozens of candidates already entered," scare you.

It is one of the greatest marks of encouragement that the Contest Editor has to offer. If the Register had but a handful of candidates to compete for the magnificent \$1450 E-M-F "30" touring car, you might well be scared.

The more candidates that enter, the more the votes will be divided, and the less you will have to secure to be returned the WINNER.

How to be a Winner
A little forethought on your part will return you the winner, in this, or any other undertaking in life. If you have been a resident of this county for a year or more you cer-

tainly have a circle of friends. By getting into this contest now, you get a clear field in which to make your campaign; make use of this ADVANTAGE by letting your friends know of your intentions and they will give you their solid vote.

If they know nothing of your candidacy they will pledge their votes to the first who asks them, and YOUR SUPPORT WILL BE DIVIDED.

Enter now before the names are announced and you'll get the solid vote of your friends and their friends.

Enter later, and you get the scattered votes and 2500 votes less for your nomination blank.

Spell NOW backwards and you have WON.

NEWPORT BEACH
GLASS FACTORY
Investment Company Closes
Contract for Plant—Takes
Over \$1,000,000 Acreage

Los Angeles Tribune: Dam & Rousseau Investment company, formerly of 332 West Sixth street, have taken three offices in the new Title Insurance building. This firm deals in Newport property, offering over \$1,000,000 worth of the finest acreage in Orange county. They also have all the beach lots formerly owned by the Orange County Improvement association, together with a beautiful townsite on the bluff where there are about 200 ocean view lots. They have recently closed a contract with Mr. J. Brannigan of Pittsburgh, Pa., whereby he is to erect and equip a glass factory at Newport Beach within ninety days.

The activity of this firm has in reality created a boom in Newport property. The indications are that what they have already accomplished may be likened to a few drops before a more plentiful shower. Their working force has been increased to enable them to push the sale of Newport property to a finish.

THE ESKIMO AS
OLD TIME INVENTOR

UNIVERSITY OF CALIFORNIA.
Jan. 29.—The University of California Museum of Anthropology at the affiliated Colleges, San Francisco, provides ever-changing "Revolving Exhibits." Last month ancient graveyards and funeral customs were on display. For January and February the museum authorities have prepared a new collection entitled "Aboriginal Inventors; The Eskimo."

The collection is arranged to show the Eskimo as the greatest inventors and most skilled mechanical engineers among all uncivilized people. Included in the exhibit are the first forms of the oil heater and cooking stove, water-tight boat, arch used for building purposes, and water-proof overcoat, as well as the most perfect types ever developed of the fish-spear, spear-thrower (an artificial arm), harpoon, and other implements. The smoking pipes of the Eskimo connect them with Asia, and their carvings with the art of the cave-men of prehistoric Europe. The collection illustrates admirably the growth of human ingenuity. The Eskimos live farthest north of any people in the world, and were assistants in the discovery of the North Pole. Some of them are subjects of the United States.

A Pot That Whistles
Twenty-two hundred years old but still singing, is the record held by a pottery jar at the museum. The visitor pulls a string and "chirp, chirp," says this lively aboriginal pre-Inca relic from ancient Peru. The top is modeled into bird form, and many a superstitious native was no doubt cowed into religious awe when the priest displayed his magic power that could make clay sing. The truth is as simple as ingenious. The jar is double, in Siamese-twin fashion, with a connecting aperture. One compartment is partly filled with water. When the vessel is tilted by the drawing of the string, the water rushes from one compartment into the other, compressing the air, which is forced out through a tiny slit in the bird's mouth on top. This slit is really a whistle, but so skillfully made that the sound it produces exactly resembles the call of a live bird. The whole device gives an idea of the high development of the ancient Peruvian Indians at a time before the Roman Empire.

The University of California Museum is in San Francisco at the affiliated Colleges and is open Sundays, holidays, and week-days, except Mondays, from 10 to 4. Admission is free. Visitors from various parts of the state as well as residents of San Francisco and the neighboring cities are cordially welcome to visit these fascinating collections ranking among and greatest in the United States.

CEMENT BILL IS UP AGAIN

Judge Childs Hearing Stone Company's Suit Against Contractor Kuechel

Judge Childs of Del Norte is in the superior court today hearing the appeal case of the Santa Ana Artificial Stone Co. against George Kuechel. This case has twice been through the justice's court and is now in the upper court for the second time. In the first trip through the courts Albert Fuller was eliminated as a defendant. Originally he and Kuechel were sued to determine who should pay for cement work done on Fuller's house, for which Kuechel had the contract.

Justice Cox gave the plaintiff judgment for \$85.50, and Kuechel took an appeal. He is represented by Attorney S. M. Davis, while the plaintiff is represented by Dick Harding and B. E. Tarver.

Case Dismissed
The plaintiff in the suit of John Bruns against Henry O. Hutton dismissed the action today. The suit was begun because Bruns thought Hutton had not used the right kind of spray on an orange grove at Olive and had injured some of the trees.

Was Not Argued
District Attorney West went to Los Angeles to appear in the Court of Appeals in the C. S. Hemstreet case, but owing to the illness of Judge Shaw the case was continued to Feb. 5. Hemstreet was sentenced to a fine of \$200 and to 150 days in jail for selling liquor to a minor. A writ of habeas corpus was issued and was set down for argument today.

Case Dismissed
On the request of Attorney J. N. Anderson for the plaintiff the action of Mrs. M. V. Burgess against James McClain, an action of a land contract, was today dismissed.

Marriage Licenses
Benjamin C. Kendrick, 26, of Grants, N. M., and Ethel M. Sturtevant, 24, of Los Angeles; Charles J. Reynolds, 30, and Sadie Gerstung, 32, both of Los Angeles; Joseph L. Gove, 31, and Mazie Kling, 42, both of Los Angeles.

WAREZ AGAIN PUT IN JAIL

Attempt to Sell Bicycle With Number Chiseled Out Looks Suspicious

Enas Warez is in jail again, this time as a suspected bicycle thief. Warez spent ninety days for stealing some wax images from a Mexican who lives near Red Hill.

Saturday Warez attempted to sell a bicycle to Coleman & Hoxsie. One of the men notified Constable Heard, and Heard soon had Warez arrested. The bicycle had the name plate removed and the number freshly chiseled out. It is thought that the rear wheel had been taken from another bicycle. The front tire was a red tire. Warez could give no account as to where he got the bicycle, and the officers are satisfied that he did not come by it rightly.

Constables Heard and Jackson and Deputy Sheriff Law made a search Saturday afternoon of a number of houses on Lincoln street, and in the cellar of the old Garcia house a bicycle was found with the number chiseled out. Jackson took possession of the bicycle. The woman at the house said it was left there by a man who has come to Los Angeles.

The officers have agreed to make a specialty of hunting down bicycle thieves. Wheel theft has been getting burdensome, and the officers think that they can put a stop to some of it by taking possession of any bicycle found with the number chiseled out.

"By taking possession of the wheel as property suspected of being stolen," said Jackson, "we can make the person from whom we take it tell exactly where he got it. Whenever a number is chiseled out of the frame of a bicycle, you can be pretty sure that at some stage of the game it was stolen."

The bicycle that Warez tried to sell had a big seat and high handle-bars. The frame is black and has been broken and mended at one place. This bicycle is now in possession of Constable Heard, who is trying to find an owner for it.

GET WHITTIER FOR A MEET

Santa Ana High School Track Athletes Have Contest for Next Saturday

The high school track schedule will have its formal opening when the Whittier high and the Santa Ana Park next Saturday. The triangle meet which was to have been held at Anaheim on that date with the German boys furnishing the third team was called off as the high school dedicatory ceremonies come on the third. When Manager Schenck received notice of Anaheim's action he immediately invited Whittier high to a dual meet which invitation was accepted by the boys from the Quaker city.

The class meet of last Tuesday revealed a lot of good track material. In the dashes Captain Fouts, Youngman, Newcomer, C. Lacy, Robinson and Wilcox were especially in evidence. "Shorty" Smith took the center from Youngman, Jacobs, and Keech. All of these should make good 440 men.

The 880 was not run but in the mile Bates won from Atkinson, and Henkey West will likely figure in the 880 as well as in the hurdles and pole vault. "Tiny" Barker took the shop-out and discus while McPhee got the high jump from Smith, West, Byrket, Barker and Foutz. Tom Lacy did not enter because of a sprained ankle. Had he been in condition a different story might have to be told.

The broad jump brought out Criddle, Devery, Jaques, Youngman, Jacobs and E. Lacy. The pole vault lies between "Chilly" Swanner and West unless Foutz proves a dark horse. In the hurdles West, Schenck, Wilcox, Foutz and Youngman appeared but the darkness prevented the running of those events. Newcomer will likely figure in the low hurdle in the coming meets.

The relay was not run but this should be one of Santa Ana's strong points, and the school will go some "that can beat the four best from the local boys."

Santa Ana is anxious to make a good showing at this opening meet and every evening the squad will be found at the Lincoln Park Practicing. Baseball practice is also being held by the ball tossers under the management of Capt. Pease and Manager "Little Spud" Morrison. There's something doing every evening.

GOOD SCORES ON THE LINKS

Interest in Santiago Golf Club Growing—Tournament Next Sunday

Few people outside the membership of the Santiago Golf Club realize what unusually fine links are those possessed by the club. The grounds were never in better shape than now, and yesterday found twenty-five or thirty players knocking the balls around the course. It was an excellent day for playing, and some excellent scores were made. Henry Rutherford went around in thirty-nine, which is crowding pretty close. Connell and Tubbs went around in forty-two strokes and Browning in forty-one. Other excellent scores were made.

Next Sunday a tournament is to be held. Handicaps are to be given according to actual scores made. The play will start about 9:30 o'clock or 10 o'clock.

The club is growing in membership, six new members being added in the last week or two. The country is fortunate in having an attraction of this kind.

LAUDANUM IS DEATH CAUSE

As Yet Nothing Appears to Identify the Man Who Took His Own Life Here

That J. J. Conaty—if that was his name—committed suicide is the belief of Coroner Winbiger. Laudanum was the drug used.

As yet no one knows who he was or where he came from. He first appeared here Wednesday morning. At Hatzfeld & Parson's drug store he asked for some laudanum, nitre and ginger, saying that he had a horse with the colic and wanted the stuff as medicine. The sale was refused without a prescription. Later the man returned with a prescription from Dr. Price, veterinary surgeon. The prescription was then filled as called for, the laudanum being placed in a separate bottle. To the veterinarian and at the drug store the man gave the name of J. Smith.

The man then went to the Harris House and rented a room. A few minutes later he was found in a stupor on the porch, and was taken to the Santa Ana Hospital, where he was worked over by County Physician Wehrly for hours before he was revived.

Friday morning the man was discharged from the hospital. The two bottles, containing the laudanum, nitre and ginger were still in the man's possession. Friday afternoon he went to the Richellen and rented a twenty-five cent room. He registered as J. J. Conaty, Baltimore, O. He was taken from the Richellen to the Santa Ana Hospital where he died.

In the man's coat a small memorandum book was found in which the address, J. J. Conaty, Baltimore, O., was found. Several leaves were torn out of this book while the man was at the Harris House. Those leaves have not been found.

There is good reason to believe the man came here from Los Angeles. His hat and coat were evidently bought in Los Angeles and seemed to have been worn for several months.

An autopsy performed Saturday night showed that the man died of laudanum poisoning.

The man is 55 or 60 years old, partly bald, with short gray hair, smooth-shaven and square-jawed. He wore a black suit of clothes, a blue shirt and a light hat.

ALL READY TO PRESENT PLAY

High School Students to Appear Wednesday in "Cupid at Vassar"

The musical comedy drama "Cupid at Vassar" to be presented by the 4A class of the Santa Ana High School Jan. 31, under the direction of Mr. Phillips, is sure to be the hit of the season.

It is a college play with quick action, full of music, and something out of the ordinary for a high school to present.

Every character has his or her own individuality interwoven into the different parts. Miss Letitia Livesey will be seen as Rose Newton, a senior at Vassar. This is a very difficult part and Miss Livesey has certainly put much work in accomplishing this end. Robert Palmer, taking the part of the hero, has mastered his part thoroughly. Royce Lantz, in character of "Shiny" the lazy darkey, is sure to keep the audience in constant laughter.

Miss Genoa Edgerly will be seen as Wanda, a freshman with a very hateful character and must be highly commended for mastering such a part. William Wollaston taking the part of the villain, has accomplished the true voice and action of a rejected lover. Miss Lucile Dessery, as a mother, makes an excellent old lady. Orin Daniel, the hired man, is very slow and comical. Miss Elizabeth Paine displays a very sweet and pleasing personality. These are the leading characters and besides there are about twenty-five girls from lower classes, who make the play a complete and finished product.
